

## REMARKS

Applicant respectfully requests entrance of the amendments as detailed above in the above-referenced patent application.

### **Amendments to the Specification**

The amendments to the specification, as detailed above, merely seek to incorporate priority information.

### **Amendments to the Claims**

The Amendments under PCT Article 34 filed on December 15, 2003 and April 28, 2004 amended claims 1, 37, 84 and 123. All other claims were left unchanged.

The present Amendment cancels claims 23-36, 47-65, 67-80, 89-107 and 109-118; and amends claims 1, 22, 37, 41, 66, 81, 84, 108, 119 and 123-124. Claims 2-21, 38-40, 42-46, 82-83, 85-88, 120-122 and 125-126 remain unchanged.

The present Amendment seeks to correct typographical or clerical errors and to modify claim dependency. Specifically, claims 1, 37 and 84, as amended, recite “a prodrug moiety” for variable R<sub>5</sub>. This language finds support *inter alia* in paragraph [0036] page 14 of the specification as filed. Claims 22, 66 and 108 have been rewritten in dependent form, and incorporate the subject matter of (now canceled) claims 23-36. Claims 37 and 84 have been rewritten in dependent form, and now depend on claims 1, 9 and 15. Claim 41 has been amended to correct claim dependency. Claim 124 has been amended to correct a typographical error.

The proposed amendment does not introduce new matter.
